

## **Aria Technologies continue their sponsorship support of Damascus College in the development of their competitive race hybrids & H.P.V's**

Melbourne, Australia – December 17 2008 – Aria Technologies once again sponsored The Damascus College Energy Breakthrough Team (D.C.E.B.T) to develop competitive race hybrids & H.P.V's.

The Damascus College Energy Breakthrough Team (D.C.E.B.T) is a group of enthusiastic & dedicated students who are interested in bikes, mechanics and science. The Human Powered Vehicles (H.P.V's) and hybrids are designed & built then entered into several races including the World Future Cycle Challenge & the RACV Energy Breakthrough, endurance race.

Aria Technologies were proud to sponsor Damascus College and help encourage the young future minds of Australia in developing alternative fuel sources to power both the automotive and the wider industries.

Through the co-sponsorship Damascus College aims to:

- raise awareness of everyday solutions to reducing greenhouse emissions.
- raise funds for sustainable energy and food programs to assist our global neighbours who do not have the same opportunities that we do.

*Aria Technologies is a leading Australian distributor of some of Australia's most popular communication solutions including LG-Nortel, ShoreTel and Nortel. Aria's philosophy is to broaden our product and solution portfolio and continue to evolve our distribution model ensuring we meet the changing needs of the Australian market. The company was founded in January 2000 and is an innovative provider of sales, marketing, technical and logistics support to its 160 plus channel partners.*

*Aria Technologies is supplier of Australia's Number 1 selling system in the 0-100 equipped end market and also supplies systems to Australia's largest carrier Telstra, under the Telstra brand.*
