

## LG-Nortel Systems co-sponsor with Connect Tel for Damascus College in developing competitive race hybrids & H.P.V's

Melbourne, Australia – December 18 2007 – LG-Nortel systems co-sponsored The Damascus College Energy Breakthrough Team (D.C.E.B.T) with Connect Tel to develop competitive race hybrids & H.P.V's.

The Damascus College Energy Breakthrough Team (D.C.E.B.T) is a group of enthusiastic & dedicated students who are interested in bikes, mechanics and science. The Human Powered Vehicles (H.P.V's) and hybrids are designed & built then entered into several races including the World Future Cycle Challenge & the RACV Energy Breakthrough, an endurance race in Maryborough (Victoria).

LG-Nortel were proud to sponsor Damascus College and help encourage the young future minds of Australia in developing alternative fuel sources to power both the automotive and the wider industries.

*LG-Nortel systems are the exclusive distributor in Australia and the Pacific of LG-Nortel communication products and solutions. LG-Nortel Korea is a global leader in communication solutions with revenues in excess of 1 billion dollars.*
